

Touch Monitor 10,4 inch

High value TFT display with VGA input aspect ratio 4:3 for your HTPC or car, home automation. A great feature is the integrated touch screen panel, so steering is possible with hand or pen like a mouse. You can connect the terminals to the 12 Volt input voltage of your power supply. Included in the delivery package is also a 12 volt car adapter for e.g. the cigarette lighter. So you have several possibilities for connecting the display.

APPLICATION FIELDS

- surveillance
- industrial technics
- machine steering
- medicine technics
- kiosk systems – cash systems
- home automation
- TV-monitoring - car-pc
- video technics - info terminals etc.

TECHNICAL DATA

- Display case (cm): 27x19,5x4
- Screen diagonal (inch/cm): 10,4/26,416
- Display (cm): 21x16
- Mounting pedestal (included) additional vesa holes
- Gross weight (including package) kg 2,15
- Net display weight kg 1,05
- Aspect ratio 4:3
- Physical resolution 800x600
- Maximum shoable resolution 1920x1200
- Colours displayed 262.144
- Brightness (cd/m2): 280
- Contrast: 400:1
- Typical reaction time Tr, Tf (ms): 25,50
- Visual angle horizontal; vertikal (°): 130;110
- Working power (V): 11.5-13
- Power consumption (W): 12
- Stand-By-consumption (W): 1
- Operating temperature (° C) 0-60
- Touch panel 4-wire resistive
- Touch-connector: USB
- Touch-panel-driver: Windows, Linux, Apple
- Touch life (contacts): > 10 000 000
- Response time touch-panel (ms): < 10
- Surface hardness 3H
- Input force (g) 20 ~ 150
- Connectors video: 2x Video, 1x VGA
- Connectors audio: 1x earphone out; 1x audio-In
- Power supply (included in delivery) 230V, 12V
- Additional features OSD-Menü, Loudspeaker, Touch-pen
